DETAILED ACTION

Allowable Subject Matter

Claims 1-86 are allowed. The following is an examiner's statement of reasons for allowance:

Claims 1-86 are allowed because a comprehensive search of prior art failed to teach, as applicant has, a sync mark detector for identifying a sync mark in an incoming bitstream of a communications channel comprising a bit comparing circuit that compares the sync mark bit by bit to the incoming bitstream in a first coding domain if channel irregularities do not exist; and a symbol comparing circuit that compares the sync mark symbol by symbol to the incoming bitstream in a second coding domain that is different than said first coding domain if channel irregularities do exist. The closest reference Simmons (US 2002/0094048) found teaches comparing the sync mark bit-bybit to the incoming stream if channel irregularities do not exist and comparing the sync mark frame by frame to the incoming stream if channel do exist (Par. 35-38). But fails to teach a bit comparing circuit that compares the sync mark bit by bit to the incoming bitstream in a first coding domain if channel irregularities do not exist; and a symbol comparing circuit that compares the sync mark symbol by symbol to the incoming bitstream in a second coding domain that is different than said first coding domain if channel irregularities do exist.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2631

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Freshteh N. Aghdam whose telephone number is (571) 272-6037. The examiner can normally be reached on Monday through Friday 9:00-5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on (571) 272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
